

Number patterns of 2s, 5s and 10s

Count in 2s, 5s and 10s

The worksheet features five rockets and five planets arranged in a grid. Each rocket is connected to a chain of stars, and each planet is connected to a chain of circles. The rockets have numbers 0, 5, 10, 18, and 100. The planets have numbers 0, 10, 20, 60, and 100. All other boxes are empty.

Rocket	Star 1	Star 2	Star 3	Star 4	Star 5	Star 6	Star 7	Star 8	Planet 1	Planet 2	Planet 3	Planet 4	Planet 5	Planet 6	Planet 7	Planet 8	Planet 9
0									0								
5									5								
10									10								
18									18								
100									100								

Teacher's notes

In each chain, children count on in twos, fives or tens starting from zero each time, and write in the missing numbers.
