

Chestnut

Morning everyone,

How are you all? We are almost at the end of week six of home learning. I think you should be very proud of yourselves for being responsible for your learning at home all of this time. Perhaps you should give the grown ups at home a big thank you for all their hard work too!

Keep in touch via Twitter and email if you want to.

Missing you,
Miss Mc

Chestnut

Hi all,

As the end of week six approaches you should absolutely definitely give yourself a huge pat on the back. None of you asked to take this on practically overnight and you should be so proud of yourselves and your children. Well done everyone!

Have included the BBC Bitesize page again if you want to check it out.

laura.mcintosh@theoaks.cheshire.sch.uk

@TheOaksCPChnut

Much love,
Miss Mc

How to use Bitesize Daily - Our new service to help you learn at home

Part of [Learn & revise](#)

+ Add to My Bitesize

Bitesize is changing to support you.

We'll provide more support to students and their parents with a series of special daily broadcasts for both primary and secondary students, complementing a whole host of extra resources online.

From Monday to Friday, you'll be able to watch Bitesize Daily on BBC Red Button from 9am to 11am, and again on BBC iPlayer.

Each 20-minute lesson will cover a different age group from ages five to 14, and will be brought to you by experts, teachers and some very familiar faces from the world of TV, sport and beyond.

As well as dedicated programmes covering Maths, Science and English, there will also be lessons featuring other subjects such as History, Geography, Music and Art.

Alongside the new Bitesize Daily lessons, there'll also be Teacher Talks - a brand new series offering helpful hints in tackling core concepts in Maths and English as well as extra content from BBC Teach including their Live Lessons series.

How you follow the lessons is completely up to you - you can join our broadcasts every day or catch up with a few in a row with every broadcast available to catch up via BBC iPlayer.

Week 6	English	Maths
Monday 11 th	The Magpie Song by Laurence Anholt Pupil Anthology p34-36	Collins Busy Ants Maths p44 Challenges 1-3 Counting in steps of 50 and 100
Tuesday 12 th	Letter writing – write a letter to someone you have not seen for a while	Collins Busy Ants Maths p45 Challenges 1- 3 Revising multiplication facts
Wednesday 13 th	Letter writing – Write the reply you think the person might send back	Collins Busy Ants Maths p46 Challenges 1-3 Revising division facts
Thursday 14 th	Choose one activity to complete from the reading activities sheet	Collins Busy Ants Maths p47 Challenges 1-3 Solving problems
Friday 15 th	Aesop's Fables retold by Malorie Blackman Pupil Anthology p19-21	Collins Busy Ants Maths p11 Challenges 1-3 Add and subtract amounts of money

Thursday 14th May 2020

English - Choose one reading activity to complete from the reading activity sheet.

Use your current reading book to complete an activity you have not yet done. As always, contact me if you are having any difficulty accessing free online books with your logins.

Reading everyday is one of the best things you can be doing right now and there are plenty of books available for you.

Thursday 14th May 2020

Maths - I can solve problems.

Collins Busy Ant Maths page 47
Challenges 1 - 3

The multiplication and division skills you have revised this week are going to help you complete this page. If you get stuck, look back at this week's work and use the methods you have been practising.

Challenge if you would like to do an additional Maths challenge click on this link

<https://youtu.be/S-ZOpAJKLCM>

This is extra and if you do feel like it but it's not a great time to use a device, you can always come back to this another time or day if you fancy it.

Solving problems

Solve problems and reason mathematically

Write a multiplication and division fact for each of these pictures.

Example

$$24 \div 3 = 8$$
$$8 \times 3 = 24$$

Read the clues to find the numbers.

a It is twelve times larger than 4.

b It is double 8 and 4 more.

c It is 20 times larger than 3 multiplied by 2.

d It is double 8 and double 8 again.

e It is 5 less than 25 divided by 5.

f It is 5 times more than 9.

g It is half of 64 and half again.

h It is the sum of 40 divided by 8 and 24 divided by 4.

i It is the same as 9 multiplied by 4 and 3 multiplied by 12.

a Nabil has 64 stamps. Amal has 8 stamps. How many times more stamps does Nabil have than Amal?

b 56 cars are in the car park in the morning. Half are gone by lunchtime. How many are left?

c A pizza is split into slices and eaten. Johan eats 8 slices of pizza and May eats 12 slices of pizza. How many slices in the whole pizza?

d The cook has 40 biscuits. He needs 8 times more for the packed lunches. How many biscuits does he need in total?

e 27 cakes are shared between 9 children. How many for each child? If cakes cost 40p each, how much did each child pay?
