

Maths

During Summer one, we will be using this time to build on our knowledge of the place value with numbers up to 50. We will also be building onto the work we have already done on addition and subtraction.

Phonics

We have a phonics screening check this term so Mrs Price will be holding a parent session to let you know more about the check and what you can do at home to support your child further. Watch out for the date on the blackboard by the classroom door.

Geography and History

Our big question this term is 'What is underneath the sea?' This links directly to our science unit of work and we will be heading to Blue Planet Aquarium to support our learning. Although this isn't a geography or history unit. We will be looking at where certain under the sea creatures come from and how temperatures in the sea vary and that can impact what creatures live there.

Please keep a look out on Twitter for updates on what we have been up to.

English

In our writing we will be using the vehicle text 'The Secret of Black Rock' by Joe Todd-Stanton. It is a fantastic language rich picture book about a girl called Erin. She loves to lie on the jetty, looking for the weirdest fish in the sea - the weirder the better! We will be using this narrative to inspire us into writing our own narrative story and then we will be writing postcards. During this unit, we will be focusing on separating words with spaces, capital letters, full stops, question marks and exclamation marks.

Music

The children will be focusing on performing music and this will feature in a celebration assembly.

Year 1
Elm Class
Summer One 2021-2022
Mrs Price

Religious Studies

We will look at the big question 'How and why are Allah and Muhammad important to Muslims?'

Physical Education

During our PE lessons we will be looking at. Children can come to school in their PE kit on a Monday.

Science

In science we will be learning about types of animals. We will be identifying and naming animals including fish, amphibians, reptiles, birds, and mammals. We will also learn about carnivores, herbivores, and omnivores.
